

The Hashemite Kingdom of Jordan

Ministry of Water and Irrigation
Water Authority of Jordan

Northern Governorates Water Transmission Feasibility Study

February 2005

المملكة الأردنية الهاشمية

By:

CDM International Inc.

For:

The United States Agency for International Development

USAID Contract No.: LAG-I-00-98-00034-00/813

CDM Project No.: 3029-42324

Volume II - Appendices

FEASIBILITY REPORT

APPENDICES TABLE OF CONTENTS

Appendix A Rehabilitation Of Mechanical Systems At Wells, Pump Stations And Pipelines

A.1 General.....	A-1
A.2 Wells	A-1
A.3 Pump Stations	A-13
A.3.1 Wadi Al-Arab PS0.....	A-13
A.3.2 Wadi A-Arab PSI	A-20
A.3.3 Wadi A-Arab PS2.....	A-21
A.3.4 Wadi A-Arab PS3.....	A-21
A.3.5 Hofa Pump Station	A-22
A.3.6 Zubdat Pump Station.....	A-23
A.3.7 Samad Pump Station.....	A-24
A.3.8 Al Huson Pump Station.....	A-25
A.3.9 Um El Lulu Pump Station	A-25
A.3.10 Bwaydah Pump Station	A-26
A.3.11 Khaldiyeh pump Station.....	A-27
A.3.12 Zatary Pump Station	A-28
A.4 Transmission Pipelines	A-30
A.4.1 East Transmission System	A-30
A.4.2 West Transmission System.....	A-33

Appendix B Rehabilitation of Pump Stations and Well Heads: Electrical Systems and Monitoring and Control Systems

B.1 Introduction	B-1
B.2 Evaluation of Electrical Installation at Station.....	B-2
B.2.1 Tabaqat Fahel Pump Station.....	B-2
B.2.2 Wadi Al-Arab Pump Station PS0	B-2
B.2.3 Wadi Al-Arab Pump Station PS1, PS2 and PS3	B-2
B.2.4 Zubdat Pump Station.....	B-3
B.2.5 Hofa Pump Station.....	B-3
B.2.6 Samad Pump Station.....	B-4
B.2.7 Huson Pump Station.....	B-4
B.2.8 Al-Za'tary Pump Station	B-4
B.2.9 Um El-Lulu Pump Station.....	B-5
B.2.10 Al Bwaydah Algarbeyeh Pump Station	B-5
B.2.11 Khaldiyeh Pump Station	B-5
B.3 Electrical Installations at Wells	B-5
B.4 Instrumentation, Monitoring & Control System	B-6
B.5 Estimated Cost for Rehabilitation of Electrical/Instrumentation System	B-6

Appendix C Legal Basis for Water Reallocation

C.1 Introduction.....	C-1
C.2 Water Resources.....	C-1

C.2.1 Wells	C-2
C.2.2 Springs	C-5
C.2.3 Entitlements under Law for Water Use from Springs	C-5
C.3 Authority of WAJ over Water Resources	C-6
C.4 Summary and Conclusions	C-8

Appendix D Tabaqat Fahel and Wadi Al Arab Water Quality

D.1 General	D-1
D.2 Tabaqat Fahel Wells Water Quality Data.....	D-1
D.3 Iron and Sulfur Bacteria In Wadi Al Arab Wells	D-3

Appendix E Economic Velocity in Force Mains

E.1 Economic Velocity in Force Mains	E-1
--	-----

Appendix F Energy Management Considerations

F.1 General.....	F-1
F.2 Cost of Electricity in Jordan	F-1
F.3 Options for Operation of Pumps and Distribution Reservoirs.....	F-2
F.4 Variable-Frequency Drives on Well Pumps	F-3

Appendix G Conceptual Study of Water Treatment Alternatives

G.1 General	G-1
G.2 Raw Water Quality.....	G-3
G.3 Treatment Train Alternatives	G-5
G.3.1 Conventional Treatment	G-6
G.3.2 Membrane Treatment.....	G-22
G.3.2.1 Ultra-filtration Membranes.....	G-22
G.3.2.2 Micro-filtration Membranes.....	G-34
G.4 Summary and Conclusions	G-45

Annex G

G.1 Recommendation.....	G-46
-------------------------	------

Appendix H Conceptual Study of Centralized Instrumentation and Control System

H.1 General.....	H-1
H.2 SCADA System Architecture.....	H-1
H.2.1 Human Machine Interface (HMI).....	H-2
H.2.2 Programmable Logic Controller (PLC).....	H-3
H.2.3 Data Communications.....	H-4
H.2.4 Uninterruptible Power Supply (UPS).....	H-5
H.3 Monitoring and Control Sites	H-5
H.3.1 Water Treatment Plants.....	H-5
H.3.2 Pump Stations.....	H-6
H.3.3 Wells.....	H-7
H.3.4 Reservoirs.....	H-9
H.3.5 Flow Metering Sites.....	H-10
H.3.6 System Isolation Valves.....	H-11

H.4 Instrumentation.....	H-12
H.4.1 General.....	H-12
H.4.2 Magnetic Flow Meters.....	H-12
H.4.3 Ultrasonic Water-Level Transmitters.....	H-13
H.4.4 Pressure Transmitters.....	H-13
H.5 Summary and Conclusions	H-13

Appendix I Cost Estimates of the Transmission System Alternatives

Appendix J Proposed Primary Systems and Subsystems Cost Estimates

Appendix K Development of 30 MCM from Wehdeh Dam and 4.4 MCM from King Abdullah Canal

K.1 Development of 30 MCM from Wehdeh Dam	K-1
K.2 Development of 500 m ³ /hour from King Abdullah Canal.....	K-5

Appendix L Financial Analysis

Appendix M Reservoirs Locations

List of Tables

Table A-1	Status of Wells	A-2
Table A-2	Cost Estimate for Rehabilitation of Wells.....	A-4
Table A-3	Pump Data	A-14
Table A-4	Cost Estimate for Mechanical Rehabilitation of Pump Stations.....	A-18
Table A-5	Transmission Pipelines: Rehabilitation Needs	A-31
Table B-1	Summary of Electrical/Instrumentation Rehabilitation Requirements and Estimated Costs	B-7
Table D-1	Tabaqat Fahel Wells Water Quality Data	D-6
Table F-1	Summary of Data on Electricity Prices and Assumed Pump Operations.....	F-2
Table F-2	Options for Pump Operations.....	F-3
Table F-3	Wadi Al Arab Well Nos 1, 4 & 5: pump characteristics.....	F-4
Table F-4	Fixed-Speed Versus Variable-Speed Operation of Well Pumps	F-6
Table F-5	Summary of Estimated Savings in Energy from Variable-Frequency Drive Operation	F-8
Table G-1	Physical Properties for Drinking Water.....	G-1
Table G-2	Substances and Properties that Affect the Taste of Drinking Water	G-1
Table G-3	Non-Organic Chemical Substances that have an Effect on Public Health....	G-2
Table G-4	Organic Pesticides that have an Effect on Human Health.....	G-2
Table G-5	Organic Contaminants/Pollutants in Drinking Water.....	G-2
Table G-6	Byproducts of the Sanitization/Disinfection Process	G-3
Table G-7	Radioactive Materials in Drinking Water.....	G-3
Table G-8	KAC Water Treatment Plant, Raw Water Quality	G-4
Table G-9	Wehdeh Water Treatment Plant, Raw Water Quality	G-5
Table G-10	Overflow Rates	G-10
Table G-11	Design Criteria for Conventional Treatment	G-15
Table G-12	Design Criteria for Chemical Handling Systems for Conventional Treatment ..	G-17
Table G-13	Estimated Costs, Conventional Treatment Processes	G-21
Table G-14	Design Criteria for Ultra-filtration Membrane Treatment	G-26
Table G-15	Design Criteria for Chemical Handling Systems for Ultra-filtration Membrane Treatment	G-28
Table G-16	Chemical Requirements for Ultrafiltration Membrane Cleaning	G-32
Table G-17	Estimated Costs, Ultra-Filtration Treatment Processes	G-33
Table G-18	Design Criteria for Microfiltration Membrane Treatment	G-37
Table G-19	Design Criteria for Chemical Handling Systems for Microfiltration Membrane Treatment	G-39
Table G-20	Chemical Requirements for Micro-filtration Membrane Cleaning.....	G-43
Table G-21	Estimated Costs, Micro-Filtration Treatment Processes.....	G-44
Table G-22	Summary of Estimated Costs of Treatment Alternatives.....	G-45
Table H-1	Estimated Cost, HMI Node at a Regional Operations Unit (ROU)	H-3
Table H-2	Estimated Cost, Instrumentation and Control at a Water Treatment Plant .	H-6

Table H-3	Estimated Cost, Instrumentation and Control at a Pump Station	H-7
Table H-4	Estimated Cost, Instrumentation and Control at a Well	H-9
Table H-5	Estimated Cost, Instrumentation and Control at a Distribution Reservoir	H-10
Table H-6	Estimated Cost, Instrumentation and Control at a Flow/Pressure Monitoring Site	H-11
Table H-7	Estimated Cost, Instrumentation and Control at an Isolation Valve Site ...	H-12
Table H-8	Summary of Estimated Costs by Type of Site.....	H-14
Table I-1a	Cost Estimates for Alternative 1 - Reservoirs	I-1
Table I-1b	Cost Estimates for Alternative 1 - Pump Stations and Annual Power Costs	I-6
Table I-1c	Cost Estimates for Alternative 1 - Pipelines	I-14
Table I-2a	Cost Estimates for Alternative 2 - Reservoirs	I-15
Table I-2b	Cost Estimates for Alternative 2 - Pump Stations and Annual Power Costs	I-20
Table I-2c	Cost Estimates for Alternative 2 - Pipelines	I-27
Table I-3a	Cost Estimates for Alternative 3 - Reservoirs	I-28
Table I-3b	Cost Estimates for Alternative 3 - Pump Stations and Annual Power Costs	I-32
Table I-3c	Cost Estimates for Alternative 3 - Pipelines Cost Estimates	I-40
Table J-1	Estimated Costs of Distribution Reservoirs	J-1
Table J-2	Estimated Costs of Pipelines	J-5
Table J-3	Estimated Cost of Pump Stations	J-6
Table J-4	Estimated Costs, Secondary Distribution Systems, from WLRP Report	J-8
Table L-1	Base Operations, Commercial Financing Of Capital Projects	
Table L-2	Efficient Operations, Commercial Financing Of Capital Projects	
Table L-3	Efficient Operations, Financing By 70% Grants And 30% Soft Loans	

List of Figures
